STOT RE 2, H373 Aquatic Acute 1, H400 Aquatic Chronic 1, H410 (multiplying factor = 10) **Most serious adverse effects on human health and the environment** 

May cause damage to organs through prolonged or repeated exposure. Toxic if swallowed or if inhaled. Very toxic to aquatic life. Very toxic to aquatic life with long lasting effects.

## SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

| Selenous acid |  |                                |                            |   |
|---------------|--|--------------------------------|----------------------------|---|
| Creation date | 10th August 2019   |                                |                            |   |
| Revision date | 14th May 2024  | Version                        | 4.0                        |   |
| Hazard statem | ents   |                                |                            |   |
| H373          | May cause dama   | ge to organs through prolo     | nged or repeated exposure. |   |
| H410          | Very toxic to aqu  | atic life with long lasting ef | fects.                     |   |
| H301+H331     | Toxic if swallowe  | d or if inhaled.               |                            |   |
| Precautionary | statements   |                                |                            |   |
| P260          | Do not breathe d   | ust.                           |                            |   |
| P301+P310     | IF SWALLOWED:  | Immediately call a doctor.     |                            |   |
| P304+P340     | IF INHALED: Remove person to fresh air and keep comfortable for breathing. |                                |                            |   |
| P311          | Call a doctor.   |                                |                            | - |
| P391          | Collect spillage.  |                                |                            |   |

Store in a well-ventilated place. Keep container tightly closed.

#### P403+P233 **2.3. Other hazards**

The substance does not have endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605. Substance does not meet the criteria for PBT or vPvB in accordance with Annex XIII of Regulation (EC) No. 1907/2006 (REACH) as amended. Dust may form explosive mixture with air.

#### SECTION 3: Composition/information on ingredients

#### 3.1. Substances

#### Chemical characterization

The substance specified below.

| Identification numbers                                 | Substance name  | Content in<br>% weight | Classification according to Regulation (EC) No 1272/2008   | Note |
|--|---|------------------------|--|------|
| Index: 034-002-00-8<br>CAS: 7783-00-8<br>EC: 231-974-7 | substance main component<br>selenium compounds with the exception of<br>cadmium sulphoselenide and those<br>specified elsewhere in this Annex |                        | Acute Tox. 3, H301, H331<br>STOT RE 2, H373<br>Aquatic Acute 1, H400 (M=1)<br>Aquatic Chronic 1, H410 (M=10) | 1    |

#### Notes

1 Note A: Without prejudice to Article 17(2), the name of the substance must appear on the label in the form of one of the designations given in Part 3. In Part 3, use is sometimes made of a general description such as '... compounds' or '... salts'. In this case, the supplier is required to state on the label the correct name, due account being taken of section 1.1.1.4.

Full text of all classifications and hazard statements is given in the section 16.

#### **SECTION 4: First aid measures**

#### 4.1. Description of first aid measures

Take care of your own safety. If any health problems are manifested or if in doubt, inform a doctor and show him information from this safety data sheet. If unconscious, put the person in the stabilized (recovery) position on his side with his head slightly bent backwards and make sure that airways are free; never induce vomiting. If the person vomits by himself, make sure that the vomit is not inhaled. In life threatening conditions first of all provide resuscitation of the affected person and ensure medical assistance. Respiratory arrest - provide artificial respiration immediately. Cardiac arrest - provide indirect cardiac massage immediately.

#### If inhaled

Terminate the exposure immediately; move the affected person to fresh air. Take care of your own safety, do not let the affected person walk! Beware of the contaminated clothes. Depending on the situation, call the medical rescue service and ensure medical treatment considering the frequent need of further observation for at least 24 hours.

#### If on skin

Remove contaminated clothes. Take off any rings, watches, bracelets before or during washing if worn in the contaminated areas of the skin. Rinse contaminated areas with a flow of water, lukewarm at best, for 10-30 minutes; do not use any brush, soap or neutralizers. Depending on the situation, call the medical rescue service and always ensure medical treatment.

## SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

|               | Sele             | nous acid |     |  |
|---------------|------------------|-----------|-----|--|
| Creation date | 10th August 2019 |           |     |  |
| Revision date | 14th May 2024    | Version   | 4.0 |  |

#### If in eyes

Rinse eyes immediately with a flow of running water, open the eyelids (also using force if needed); remove contact lenses immediately if worn by the affected person. No neutralization should be performed in any case! Rinsing should be continued for 10-30 minutes from the inner to the outer eye corner to make sure that the other eye is not involved. Depending on the situation, call medical rescue service or ensure medical treatment as promptly as possible. Everyone must be referred for treatment even if affected only a little.

#### If swallowed

Give the affected person water (no more than two glasses). Seek medical attention immediately. Only in exceptional cases, if medical treatment is not available within one hour, induce vomiting (only in fully conscious persons), administer activated charcoal (20-40 g in 10% slurry) and transport to a doctor as soon as possible.

#### 4.2. Most important symptoms and effects, both acute and delayed

#### If inhaled

Not expected. **If on skin** Not expected. **If in eyes** Not expected. **If swallowed** Irritation, nausea.

## 4.3. Indication of any immediate medical attention and special treatment needed

Symptomatic treatment.

#### **SECTION 5: Firefighting measures**

#### 5.1. Extinguishing media

#### Suitable extinguishing media

Alcohol-resistant foam, carbon dioxide, powder, water spray jet, water mist.

#### Unsuitable extinguishing media

Water - full jet.

#### 5.2. Special hazards arising from the substance or mixture

In the event of fire, carbon monoxide, carbon dioxide and other toxic gases may arise. Inhalation of hazardous degradation (pyrolysis) products may cause serious health damage.

#### 5.3. Advice for firefighters

Self-Contained Breathing Apparatus (SCBA) with a chemical protection suit only where personal (close) contact is likely. Use a self-contained breathing apparatus and full-body protective clothing. Do not allow run-off of contaminated fire extinguishing material to enter drains or surface and ground water.

#### **SECTION 6: Accidental release measures**

#### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment for work. Follow the instructions in the Sections 7 and 8. Do not inhale dust. Prevent contact with skin and eyes.

# 6.2. Environmental precautions Prevent contamination of the soil and entering surface or ground water. Do not allow to enter drains. 6.3. Methods and material for containment and cleaning up

Place the product mechanically in an appropriate manner. Dispose of the collected material according to the instructions in the section 13.

#### 6.4. Reference to other sections

See the Section 7, 8 and 13.

## **SAFETY DATA SHEET**

according to Regulation (EC) No 1907/2006 (REACH) as amended

|               | Sele             | nous acid |     |  |
|---------------|------------------|-----------|-----|--|
| Creation date | 10th August 2019 |           |     |  |
| Revision date | 14th May 2024    | Version   | 4.0 |  |

#### SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

Do not inhale dust. Prevent contact with skin and eyes. Wash hands and exposed parts of the body thoroughly after handling. Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area. Use personal protective equipment as per Section 8. Observe valid legal regulations on safety and health protection. Avoid release to the environment.

#### 7.2. Conditions for safe storage, including any incompatibilities

Store in tightly closed containers in cold, dry and well ventilated areas designated for this purpose. Store locked up. Keep container tightly closed.

#### 7.3. Specific end use(s)

not available

#### **SECTION 8: Exposure controls/personal protection**

#### 8.1. Control parameters

none

#### 8.2. Exposure controls

Follow the usual measures intended for health protection at work and especially for good ventilation. This can be achieved only by local suction or efficient general ventilation. Do not eat, drink and smoke during work. Wash your hands thoroughly with water and soap after work and before breaks for a meal and rest.

#### Eye/face protection

It is not needed.

#### Skin protection

Hand protection: Protective gloves resistant to the product. Contaminated skin should be washed thoroughly.

#### **Respiratory protection**

Use insulating breathing apparatus when the exposition limits of the substances are exceeded or at the place with insufficient ventilation.

#### Thermal hazard

Not available.

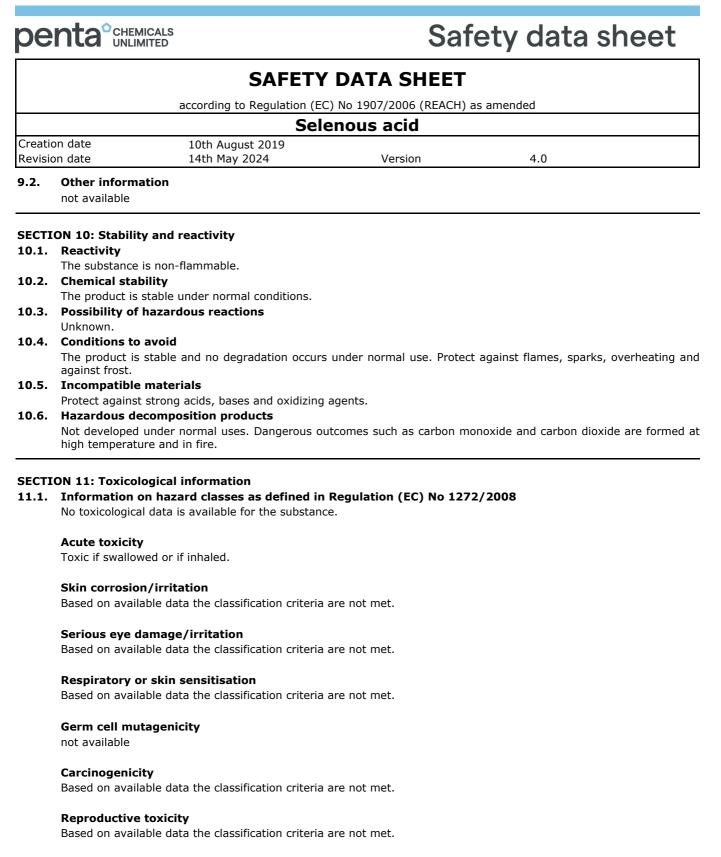

#### Environmental exposure controls

Observe usual measures for protection of the environment, see Section 6.2. Collect spillage.

#### SECTION 9: Physical and chemical properties

#### 9.1. Information on basic physical and chemical properties

| Physical state   | solid              |
|--|--------------------|
| Colour   | colourless         |
| Odour  | without fragrance  |
| Melting point/freezing point                             | data not available |
| Boiling point or initial boiling point and boiling range | data not available |
| Flammability   | data not available |
| Lower and upper explosion limit                          | data not available |
| Flash point  | data not available |
| Auto-ignition temperature                                | data not available |
| Decomposition temperature                                | data not available |
| рН   | data not available |
| Kinematic viscosity                                      | data not available |
| Solubility in water                                      | data not available |
| Partition coefficient n-octanol/water (log value)        | data not available |
| Vapour pressure  | data not available |
| Density and/or relative density                          | data not available |
| Relative vapour density                                  | data not available |
| Particle characteristics                                 | data not available |
|  |                    |

#### Toxicity for specific target organ - single exposure

Based on available data the classification criteria are not met.

#### Toxicity for specific target organ - repeated exposure

May cause damage to organs through prolonged or repeated exposure. Based on available data the classification criteria are not met.

|   | SAFETY                      | DATA SHEET             |            |  |  |

#### Aspiration hazard

Based on available data the classification criteria are not met.

#### 11.2. Information on other hazards

The substance does not have endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.

#### **SECTION 12: Ecological information**

#### 12.1. Toxicity

Very toxic to aquatic life. Very toxic to aquatic life with long lasting effects.

12.2. Persistence and degradability

No data available for the substance.

- **12.3. Bioaccumulative potential** No data available for the substance.
- 12.4. Mobility in soil

No data available for the substance.

12.5. Results of PBT and vPvB assessment

Product does not contain any substance meeting the criteria for PBT or vPvB in accordance with the Annex XIII of Regulation (EC) No 1907/2006 (REACH) as amended.

# 12.6. Endocrine disrupting properties This substance does not have endocrine disrupting properties with respect to non-target organisms as it does not meet the criteria set out in section B of Regulation (EU) No 2017/2100. 12.7. Other adverse effects

Not available.

#### **SECTION 13: Disposal considerations**

#### 13.1. Waste treatment methods

Hazard of environmental contamination; dispose of the waste in accordance with the local and/or national regulations. Proceed in accordance with valid regulations on waste disposal. Any unused product and contaminated packaging should be put in labelled containers for waste collection and submitted for disposal to a person authorised for waste removal (a specialized company) that is entitled for such activity. Do not empty unused product in drainage systems. The product must not be disposed of with municipal waste. Empty containers may be used at waste incinerators to produce energy or deposited in a dump with appropriate classification. Perfectly cleaned containers can be submitted for recycling.

#### Waste management legislation

Directive 2008/98/EC of the European Parliament and of the Council of 19 November 2008 on waste, as amended. Decision 2000/532/EC establishing a list of wastes, as amended.

#### **SECTION 14:** Transport information

#### 14.1. UN number or ID number

UN 3283

- **14.2.** UN proper shipping name SELENIUM COMPOUND, SOLID, N.O.S. (Kyselina seleničitá)
- 14.3. Transport hazard class(es)
  - 6.1 Toxic substances
- **14.4.** Packing group II
- 14.5. Environmental hazards not relevant
- **14.6.** Special precautions for user Reference in the Sections 4 to 8.

#### **SECTION 15: Regulatory information**

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of 18th December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing the European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No. 793/93 and Commission Regulation (EC) No. 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC, as amended. REGULATION (EC) No. 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL as amended. Commission Regulation (EU) 2020/878 of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

#### 15.2. Chemical safety assessment

A chemical safety assessment has not been carried out.

#### **SECTION 16: Other information**

| A list of standard risk | phrases used in the safety data sheet   |
|-------------------------|---|
| H301                    | Toxic if swallowed.   |
| H331                    | Toxic if inhaled.   |
| H373                    | May cause damage to organs through prolonged or repeated exposure.                          |
| H400                    | Very toxic to aquatic life.   |
| H410                    | Very toxic to aquatic life with long lasting effects.                                       |
| H301+H331               | Toxic if swallowed or if inhaled.   |
| Guidelines for safe ha  | andling used in the safety data sheet   |
| P260                    | Do not breathe dust.  |
| P301+P310               | IF SWALLOWED: Immediately call a doctor.  |
| P304+P340               | IF INHALED: Remove person to fresh air and keep comfortable for breathing.                  |
| P311                    | Call a doctor.  |
| P391                    | Collect spillage.   |
| P403+P233               | Store in a well-ventilated place. Keep container tightly closed.                            |
| Other important infor   | mation about human health protection  |
| The product must not b  | e - unless specifically approved by the manufacturer/importer - used for purposes other the |
|                         |   |

an as per the Section 1. The user is responsible for adherence to all related health protection regulations.

Statement

The safety data sheet provides information aimed at ensuring safety and health protection at work and environmental protection. The provided information corresponds to the current status of knowledge and experience and complies with valid legal regulations. The information should not be understood as guaranteeing the suitability and usability of the product for a particular application.
