# Safety data sheet

#### SAFETY DATA SHEET according to Regulation (EC) No 1907/2006 (REACH) as amended Hydrochloric acid ready to use volumetric solution 1 mol/l (1 N)Creation date 06th December 2023 Revision date Version 1.0 SECTION 1: Identification of the substance/mixture and of the company/undertaking **Product identifier** Hydrochloric acid ready to use volumetric solution 1 mol/l 1.1. (1 N) Substance / mixture mixture UFT 0YHF-EHQQ-92KA-GD3D Other mixture names Hydrochloric acid ready to use volumetric solution 1 mol/l Relevant identified uses of the substance or mixture and uses advised against 1.2. Mixture's intended use Analytical chemistry. Laboratory synthesis. Mixture uses advised against The product should not be used in ways other than those referred in Section 1. Details of the supplier of the safety data sheet 1.3. Supplier Name or trade name Ing. Petr Švec - PENTA s.r.o. Address Radiová 1122/1, Praha 10, 102 00 Czech Republic Identification number (CRN) 02096013 CZ02096013 VAT Reg No +420 226 060 681 Phone E-mail info@pentachemicals.eu Web address www.pentachemicals.eu Competent person responsible for the safety data sheet Ing. Petr Švec - PENTA s.r.o. Name F-mail info@pentachemicals.eu 1.4. **Emergency telephone number** European emergency number: 112 112 **SECTION 2: Hazards identification** Classification of the substance or mixture 2.1. Classification of the mixture in accordance with Regulation (EC) No 1272/2008 The mixture is classified as dangerous. Met. Corr. 1, H290 Eye Dam. 1, H318 Full text of all classifications and hazard statements is given in the section 16.

Most serious adverse physico-chemical effects May be corrosive to metals. Most serious adverse effects on human health and the environment Causes serious eve damage.

### 2.2. Label elements

## **SAFETY DATA SHEET**

according to Regulation (EC) No 1907/2006 (REACH) as amended

## Hydrochloric acid ready to use volumetric solution 1 mol/l (1 N)

right centerie dela ready to use volumente solution i mol/r (i N)			
Creation date	06th December 2023		
Revision date	Version 1.0		
Hazardous sul	stances		
hydrochloric aci	%		
Hazard staten	ents		
H290	May be corrosive to metals.		
H318	Causes serious eye damage.		
Precautionary	statements		
P234	Keep only in original packaging.		
P280	Wear eye protection.		
P305+P351+P3	8 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.		

Immediately call a doctor.

### P310

### 2.3. Other hazards

The mixture does not contain substances with endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605. Mixture does not contain any substance meet the criteria for PBT or vPvB in accordance with Annex XIII of Regulation (EC) No. 1907/2006 (REACH) as amended.

### SECTION 3: Composition/information on ingredients

### 3.2. Mixtures

# Mixture contains these hazardous substances and substances with the highest permissible concentration in the working environment

Identification numbers	Substance name	Content in % weight	Classification according to Regulation (EC) No 1272/2008	Note
Index: 017-002-01-X CAS: 7647-01-0 EC: 231-595-7 Registration number: 01-2119484862-27- 0000	hydrochloric acid %		Met. Corr. 1, H290 Skin Corr. 1B, H314 Eye Dam. 1, H318 STOT SE 3, H335 Specific concentration limit: Skin Corr. 1A, H314: $C \ge 25 \%$ STOT SE 3, H335: $C \ge 10 \%$ Eye Dam. 1, H318: $C \ge 1 \%$ Met. Corr. 1, H290: $C \ge 0.1 \%$ Skin Corr. 1B, H314: $10 \% \le C < 25 \%$	1, 2

Notes

- 1 Note B: Some substances (acids, bases, etc.) are placed on the market in aqueous solutions at various concentrations and, therefore, these solutions require different classification and labelling since the hazards vary at different concentrations. In Part 3 entries with Note B have a general designation of the following type: 'nitric acid ... %'. In this case the supplier must state the percentage concentration of the solution on the label. Unless otherwise stated, it is assumed that the percentage concentration is calculated on a weight/weight basis.
- 2 A substance for which exposure limits are set.

Full text of all classifications and hazard statements is given in the section 16.

### **SECTION 4: First aid measures**

### 4.1. Description of first aid measures

Take care of your own safety. If any health problems are manifested or if in doubt, inform a doctor and show him information from this safety data sheet. If unconscious, put the person in the stabilized (recovery) position on his side with his head slightly bent backwards and make sure that airways are free; never induce vomiting. If the person vomits by himself, make sure that the vomit is not inhaled. In life threatening conditions first of all provide resuscitation of the affected person and ensure medical assistance. Respiratory arrest - provide artificial respiration immediately. Cardiac arrest - provide indirect cardiac massage immediately.

## SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

## Hydrochloric acid ready to use volumetric solution 1 mol/l (1 N)

Creation date	06th December 2023		
Revision date		Version	1.0

### If inhaled

Terminate the exposure immediately; move the affected person to fresh air. Protect the person against growing cold. Provide medical treatment if irritation, dyspnoea or other symptoms persist.

### If on skin

Remove contaminated clothes. Wash the affected area with plenty of water, lukewarm if possible. Soap, soap solution or shampoo should be used if there is no skin injury. Provide medical treatment if skin irritation persists.

### If in eyes

Rinse eyes immediately with a flow of running water, open the eyelids (also using force if needed); remove contact lenses immediately if worn by the affected person. No neutralization should be performed in any case! Rinsing should be continued for 10-30 minutes from the inner to the outer eye corner to make sure that the other eye is not involved. Depending on the situation, call medical rescue service or ensure medical treatment as promptly as possible. Everyone must be referred for treatment even if affected only a little.

### If swallowed

Rinse out the mouth with clean water. In the event of issues, find medical help.

### 4.2. Most important symptoms and effects, both acute and delayed

### If inhaled

Inhaling vapours can cause corrosion of the breathing system.

### If on skin

Not expected.

If in eyes

Causes serious eye damage.

### If swallowed

Corrosion of the digestion system can occur.

# **4.3.** Indication of any immediate medical attention and special treatment needed Symptomatic treatment.

### **SECTION 5: Firefighting measures**

### 5.1. Extinguishing media

### Suitable extinguishing media

Alcohol-resistant foam, carbon dioxide, powder, water spray jet, water mist. **Unsuitable extinguishing media** 

Water - full jet.

### 5.2. Special hazards arising from the substance or mixture

In the event of fire, carbon monoxide, carbon dioxide and other toxic gases may arise. Inhalation of hazardous degradation (pyrolysis) products may cause serious health damage.

### 5.3. Advice for firefighters

Self-Contained Breathing Apparatus (SCBA) with a chemical protection suit only where personal (close) contact is likely. Use a self-contained breathing apparatus and full-body protective clothing. Do not allow run-off of contaminated fire extinguishing material to enter drains or surface and ground water.

### **SECTION 6: Accidental release measures**

### 6.1. Personal precautions, protective equipment and emergency procedures

May be corrosive to metals. Use personal protective equipment for work. Follow the instructions in the Sections 7 and 8. Prevent contact with skin and eyes.

### 6.2. Environmental precautions

Prevent contamination of the soil and entering surface or ground water.

### 6.3. Methods and material for containment and cleaning up

Spilled product should be covered with suitable (non-flammable) absorbing material (sand, diatomaceous earth, earth and other suitable absorption materials); to be contained in well closed containers and removed as per the Section 13. In the event of leakage of the substantial amount of the product, inform fire brigade and other competent bodies. After removal of the product, wash the contaminated site with plenty of water. Do not use solvents. Absorb spillage to prevent material damage.

## SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

## Hydrochloric acid ready to use volumetric solution 1 mol/l (1 N)

Creation date	06th December 2023		
Revision date	Version	1.0	

### 6.4. Reference to other sections

See the Section 7, 8 and 13.

### SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

Prevent formation of gases and vapours in concentrations exceeding the occupational exposure limits. Prevent contact with skin and eyes. Use personal protective equipment as per Section 8. Observe valid legal regulations on safety and health protection.

### 7.2. Conditions for safe storage, including any incompatibilities

Store in tightly closed containers in cold, dry and well ventilated areas designated for this purpose. Do not expose to sunlight. Keep only in original packaging.

## 7.3. Specific end use(s)

not available

### SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

European Union	Commission D	Commission Directive 2000/39/EC		
Substance name (component)	Туре	Value		
	OEL 8 hours	8 mg/m <sup>3</sup>		
hydrochloric acid % (CAS: 7647-01-0)	OEL 8 hours	5 ppm		
	OEL 15 minutes	15 mg/m <sup>3</sup>		
	OEL 15 minutes	10 ppm		

### 8.2. Exposure controls

Do not eat, drink and smoke during work. Wash your hands thoroughly with water and soap after work and before breaks for a meal and rest.

### Eye/face protection

Protective goggles or face shield (based on the nature of the work performed).

#### Skin protection

Hand protection: Protective gloves resistant to the product (nitrile rubber). When handling in long-term or repeatedly, use protective gloves.

### **Respiratory protection**

Halfmask with a filter against organic vapours or a self-contained breathing apparatus as appropriate if exposure limit values of substances are exceeded or in a poorly ventilated environment.

### Thermal hazard

Not available.

### **Environmental exposure controls**

Observe usual measures for protection of the environment, see Section 6.2.

### **SECTION 9: Physical and chemical properties**

### 9.1. Information on basic physical and chemical properties

Physical state	liquid
Colour	colourless
Odour	acrid
Melting point/freezing point	data not available
Boiling point or initial boiling point and boiling range	data not available
Flammability	non-inflammable
Lower and upper explosion limit	data not available
Flash point	data not available

## SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

### Hydrochloric acid ready to use volumetric solution 1 mol/l (1 N)

Creation date	06th December 2023		
Revision date		Version	1.0
Auto-i	gnition temperature	data not available	
Decon	nposition temperature	data not available	
pН		data not available

9.2. Other	information		
Oxidis	ing properties	The product has no oxid	dizing properties.

### **SECTION 10: Stability and reactivity**

### 10.1. Reactivity

not available

### 10.2. Chemical stability

- The product is stable under normal conditions.
- **10.3.** Possibility of hazardous reactions

### Unknown.

10.4. Conditions to avoid

The product is stable and no degradation occurs under normal use. Protect against flames, sparks, overheating and against frost.

### 10.5. Incompatible materials

Protect against strong acids, bases and oxidizing agents. May be corrosive to metals.

### **10.6.** Hazardous decomposition products

Not developed under normal uses. Dangerous outcomes such as carbon monoxide and carbon dioxide are formed at high temperature and in fire.

### **SECTION 11: Toxicological information**

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Inhalation of solvent vapors above values exceeding exposure limits for working environment may result in acute inhalation poisoning, depending on the level of concentration and exposure time. No toxicological data is available for the mixture.

### Acute toxicity

Data for the mixture are not available. Based on the available data, the criteria for classification of the mixture are not met.

hydrochloric acid %					
Route of exposure	Parameter	Value	Exposure time	Species	Sex
Dermal	LD50	>5010 mg/kg		Rabbit	
Inhalation (vapor)	LC <sup>50</sup>	4701 ppm	30 minutes		

### Skin corrosion/irritation

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### Serious eye damage/irritation

Causes serious eye damage. Data for the components of the mixture are not available.

## SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

## Hydrochloric acid ready to use volumetric solution 1 mol/l (1 N)

Creation date	06th December 2023		
Revision date		Version	1.0

### Respiratory or skin sensitisation

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### Germ cell mutagenicity

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### Carcinogenicity

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### **Reproductive toxicity**

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### Toxicity for specific target organ - single exposure

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### Toxicity for specific target organ - repeated exposure

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### Aspiration hazard

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### 11.2. Information on other hazards

The mixture does not contain substances with endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.

### **SECTION 12: Ecological information**

### 12.1. Toxicity

Data for the mixture are not available. Based on the available data, the criteria for classification of the mixture are not met.

### Acute toxicity

hydrochloric acid %				
Parameter	Value	Exposure time	Species	Environment
LC50	20.5 (pH 3.25) mg/l	96 hours	Fish (Oncorhynchus mykiss)	
EC₅o	0.45 mg/l	48 hours	Daphnia (Daphnia magna)	

### 12.2. Persistence and degradability

No data are available for either the mixture or the components.

### 12.3. Bioaccumulative potential

No data are available for either the mixture or the components.

### 12.4. Mobility in soil

No data are available for either the mixture or the components.

# Safety data sheet

	SAFETY DATA SHEET
	according to Regulation (EC) No 1907/2006 (REACH) as amended
	Hydrochloric acid ready to use volumetric solution 1 mol/l (1 N)
Creation	on date 06th December 2023
Revisi	on date Version 1.0
12.5.	Results of PBT and vPvB assessment
	Product does not contain any substance meeting the criteria for PBT or vPvB in accordance with the Annex XIII of Regulation (EC) No 1907/2006 (REACH) as amended.
12.6.	Endocrine disrupting properties
	The mixture does not contain substances with endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.
12.7.	Other adverse effects
	Not available.
SECTI	ON 13: Disposal considerations
13.1.	Waste treatment methods
	Hazard of environmental contamination; dispose of the waste in accordance with the local and/or national regulations. Proceed in accordance with valid regulations on waste disposal. Any unused product and contaminated packaging should be put in labelled containers for waste collection and submitted for disposal to a person authorised for waste removal (a specialized company) that is entitled for such activity. Do not empty unused product in drainage systems. The product must not be disposed of with municipal waste. Empty containers may be used at waste incinerators to produce energy or deposited in a dump with appropriate classification. Perfectly cleaned containers

### can be submitted for recycling. Waste management legislation

Directive 2008/98/EC of the European Parliament and of the Council of 19 November 2008 on waste, as amended. Decision 2000/532/EC establishing a list of wastes, as amended.
