

## SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

### Sodium azide

|               |                  |         |     |
|---------------|------------------|---------|-----|
| Creation date | 19th August 2016 | Version | 4.0 |
| Revision date | 22nd March 2023  |         |     |

#### SECTION 1: Identification of the substance/mixture and of the company/undertaking

##### 1.1. Product identifier

|                      |                       |
|----------------------|-----------------------|
| Substance / mixture  | Sodium azide          |
| Chemical name        | substance             |
| CAS number           | sodium azide          |
| Index number         | 26628-22-8            |
| EC (EINECS) number   | 011-004-00-7          |
| Registration number  | 247-852-1             |
| Other substance name | 01-2119457019-37-xxxx |
| Sodium azide         |                       |

##### 1.2. Relevant identified uses of the substance or mixture and uses advised against

###### Substance's intended use

Chemical production, analytical chemistry, laboratory synthesis, industrial applications.

###### Substance uses advised against

The product should not be used in ways other than those referred in Section 1.

##### 1.3. Details of the supplier of the safety data sheet

###### Supplier

|                             |                                  |
|-----------------------------|----------------------------------|
| Name or trade name          | Ing. Petr Švec - PENTA s.r.o.    |
| Address                     | Radiová 1122/1, Praha 10, 102 00 |
|                             | Czech Republic                   |
| Identification number (CRN) | 02096013                         |
| VAT Reg No                  | CZ02096013                       |
| Phone                       | +420 226 060 681                 |
| E-mail                      | info@pentachemicals.eu           |
| Web address                 | www.pentachemicals.eu            |

###### Competent person responsible for the safety data sheet

|        |                               |
|--------|-------------------------------|
| Name   | Ing. Petr Švec - PENTA s.r.o. |
| E-mail | info@pentachemicals.eu        |

##### 1.4. Emergency telephone number

European emergency number: 112

#### SECTION 2: Hazards identification

##### 2.1. Classification of the substance or mixture

###### Classification of the substance in accordance with Regulation (EC) No 1272/2008

The substance is classified as dangerous.

Acute Tox. 2, H300+H330  
Acute Tox. 1, H310  
STOT RE 2, H373 (brain)  
Aquatic Acute 1, H400  
Aquatic Chronic 1, H410

###### Most serious adverse effects on human health and the environment

Fatal in contact with skin. May cause damage to the brain through prolonged or repeated exposure. Fatal if swallowed or if inhaled. Very toxic to aquatic life. Very toxic to aquatic life with long lasting effects.

## SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

### Sodium azide

|               |                  |         |     |
|---------------|------------------|---------|-----|
| Creation date | 19th August 2016 | Version | 4.0 |
| Revision date | 22nd March 2023  |         |     |

#### 2.2. Label elements

##### Hazard pictogram

##### Signal word

Danger

##### Dangerous substance

sodium azide

(Index: 011-004-00-7; CAS: 26628-22-8)

##### Hazard statements

|           |   |
|-----------|---|
| H310      | Fatal in contact with skin.   |
| H373      | May cause damage to the brain through prolonged or repeated exposure. |
| H410      | Very toxic to aquatic life with long lasting effects.                 |
| H300+H330 | Fatal if swallowed or if inhaled.                                     |

##### Precautionary statements

|           |   |
|-----------|---|
| P273      | Avoid release to the environment.               |
| P280      | Wear protective gloves/protective clothing.     |
| P301+P310 | IF SWALLOWED: Immediately call a doctor.        |
| P302+P352 | IF ON SKIN: Wash with plenty of water and soap. |
| P310      | Immediately call a doctor.                      |

##### Supplemental information

|        |  |
|--------|--|
| EUH032 | Contact with acids liberates very toxic gas. |
|--------|--|

#### 2.3. Other hazards

The substance does not have endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605. Substance does not meet the criteria for PBT or vPvB in accordance with Annex XIII of Regulation (EC) No. 1907/2006 (REACH) as amended. Dust may form explosive mixture with air.

### SECTION 3: Composition/information on ingredients

#### 3.1. Substances

##### Chemical characterization

The substance specified below.

| Identification numbers   | Substance name                                  | Content in % weight | Classification according to Regulation (EC) No 1272/2008   | Note |
|--|---|---------------------|--|------|
| Index: 011-004-00-7<br>CAS: 26628-22-8<br>EC: 247-852-1<br>Registration number:<br>01-2119457019-37-xxxx | <b>substance main component</b><br>sodium azide | >99                 | Acute Tox. 2, H300+H330<br>Acute Tox. 1, H310<br>STOT RE 2, H373 (brain)<br>Aquatic Acute 1, H400 (M=1)<br>Aquatic Chronic 1, H410 (M=1)<br>EUH032 | 1    |

##### Notes

1 A substance for which exposure limits are set.

Full text of all classifications and hazard statements is given in the section 16.

## SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

### Sodium azide

|               |                  |         |     |
|---------------|------------------|---------|-----|
| Creation date | 19th August 2016 | Version | 4.0 |
| Revision date | 22nd March 2023  |         |     |

#### SECTION 4: First aid measures

##### 4.1. Description of first aid measures

Take care of your own safety. If any health problems are manifested or if in doubt, inform a doctor and show him information from this safety data sheet. If unconscious, put the person in the stabilized (recovery) position on his side with his head slightly bent backwards and make sure that airways are free; never induce vomiting. If the person vomits by himself, make sure that the vomit is not inhaled. In life threatening conditions first of all provide resuscitation of the affected person and ensure medical assistance. Respiratory arrest - provide artificial respiration immediately. Cardiac arrest - provide indirect cardiac massage immediately.

##### **If inhaled**

Terminate the exposure immediately; move the affected person to fresh air. Take care of your own safety, do not let the affected person walk! Beware of the contaminated clothes. Depending on the situation, call the medical rescue service and ensure medical treatment considering the frequent need of further observation for at least 24 hours.

##### **If on skin**

Remove contaminated clothes. Take off any rings, watches, bracelets before or during washing if worn in the contaminated areas of the skin. Rinse contaminated areas with a flow of water, lukewarm at best, for 10-30 minutes; do not use any brush, soap or neutralizers. Depending on the situation, call the medical rescue service and always ensure medical treatment.

##### **If in eyes**

Rinse eyes immediately with a flow of running water, open the eyelids (also using force if needed); remove contact lenses immediately if worn by the affected person. No neutralization should be performed in any case! Rinsing should be continued for 10-30 minutes from the inner to the outer eye corner to make sure that the other eye is not involved. Depending on the situation, call medical rescue service or ensure medical treatment as promptly as possible. Everyone must be referred for treatment even if affected only a little.

##### **If swallowed**

INDUCE VOMITING! Vomiting should be induced in the person only if conscious, within 1 hour from ingestion. If in doubt whether vomiting should be induced, contact the Toxicological Information Centre and give information about the substances or composition of the product as provided on the original packaging or in the safety data sheet of the product. FOLLOWING INGESTION OF TOXIC OR HIGHLY TOXIC SUBSTANCES, GIVE 10-20 CRUSHED TABLETS OF ACTIVATED CARBON, MIXED IN WATER, WITHIN NO LATER THAN 5 MINUTES - irrespective of whether vomiting could be induced. Call medical rescue service.

##### 4.2. Most important symptoms and effects, both acute and delayed

##### **If inhaled**

Not expected.

##### **If on skin**

not available

##### **If in eyes**

Not expected.

##### **If swallowed**

Irritation, nausea.

##### 4.3. Indication of any immediate medical attention and special treatment needed

Symptomatic treatment.

#### SECTION 5: Firefighting measures

##### 5.1. Extinguishing media

##### **Suitable extinguishing media**

Alcohol-resistant foam, carbon dioxide, powder, water spray jet, water mist.

##### **Unsuitable extinguishing media**

Water - full jet.

##### 5.2. Special hazards arising from the substance or mixture

In the event of fire, carbon monoxide, carbon dioxide and other toxic gases may arise. Inhalation of hazardous degradation (pyrolysis) products may cause serious health damage.

## SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

### Sodium azide

|               |                  |         |     |
|---------------|------------------|---------|-----|
| Creation date | 19th August 2016 | Version | 4.0 |
| Revision date | 22nd March 2023  |         |     |

#### 5.3. Advice for firefighters

Self-Contained Breathing Apparatus (SCBA) with a chemical protection suit only where personal (close) contact is likely. Use a self-contained breathing apparatus and full-body protective clothing. Do not allow run-off of contaminated fire extinguishing material to enter drains or surface and ground water.

### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment for work. Follow the instructions in the Sections 7 and 8. Do not inhale dust. Prevent contact with skin and eyes.

#### 6.2. Environmental precautions

Prevent contamination of the soil and entering surface or ground water. Do not allow to enter drains.

#### 6.3. Methods and material for containment and cleaning up

Place the product mechanically in an appropriate manner. Dispose of the collected material according to the instructions in the section 13.

#### 6.4. Reference to other sections

See the Section 7, 8 and 13.

### SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

Prevent formation of gases and vapours in concentrations exceeding the occupational exposure limits. Do not inhale dust. Prevent contact with skin and eyes. Wash hands and exposed parts of the body thoroughly after handling. Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area. Use personal protective equipment as per Section 8. Observe valid legal regulations on safety and health protection. Avoid release to the environment.

#### 7.2. Conditions for safe storage, including any incompatibilities

Store in tightly closed containers in cold, dry and well ventilated areas designated for this purpose. Store locked up. Keep container tightly closed.

Storage class

6,1A - Combustible acute toxic substances

#### 7.3. Specific end use(s)

not available

### SECTION 8: Exposure controls/personal protection

#### 8.1. Control parameters

##### European Union

##### Commission Directive 2000/39/EC

| Substance name (component)     | Type           | Value                 | Note |
|--------------------------------|----------------|-----------------------|------|
| sodium azide (CAS: 26628-22-8) | OEL 8 hours    | 0,1 mg/m <sup>3</sup> | Skin |
|                                | OEL 15 minutes | 0,3 mg/m <sup>3</sup> |      |

#### 8.2. Exposure controls

Follow the usual measures intended for health protection at work and especially for good ventilation. This can be achieved only by local suction or efficient general ventilation. Do not eat, drink and smoke during work. Wash your hands thoroughly with water and soap after work and before breaks for a meal and rest.

##### Eye/face protection

Safety glasses or protective shield.

##### Skin protection

Hand protection: Protective gloves resistant to the product (nitrile rubber). When choosing appropriate thickness, material and permeability of the gloves, observe recommendations of their particular manufacturer. Contaminated skin should be washed thoroughly.

## SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

### Sodium azide

|               |                  |         |     |
|---------------|------------------|---------|-----|
| Creation date | 19th August 2016 | Version | 4.0 |
| Revision date | 22nd March 2023  |         |     |

#### Respiratory protection

Respirator.

#### Thermal hazard

Not available.

#### Environmental exposure controls

Observe usual measures for protection of the environment, see Section 6.2. Collect spillage.

### SECTION 9: Physical and chemical properties

#### 9.1. Information on basic physical and chemical properties

|  |                                |
|--|--------------------------------|
| Physical state   | solid                          |
| Colour   | white                          |
| Odour  | without fragrance              |
| Melting point/freezing point                             | 275 °C                         |
| Boiling point or initial boiling point and boiling range | data not available             |
| Flammability   | data not available             |
| Lower and upper explosion limit                          | data not available             |
| Flash point  | data not available             |
| Auto-ignition temperature                                | data not available             |
| Decomposition temperature                                | data not available             |
| pH   | 10 (65 g/l% solution at 25 °C) |
| Kinematic viscosity                                      | data not available             |
| Solubility in water                                      | 41.7 g/100 ml                  |
| Partition coefficient n-octanol/water (log value)        | data not available             |
| Vapour pressure  | data not available             |
| Density and/or relative density                          |                                |
| Density  | 1.85 g/cm <sup>3</sup>         |
| Relative vapour density                                  | data not available             |
| Particle characteristics                                 | data not available             |

#### 9.2. Other information

not available

### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

The substance is non-flammable.

#### 10.2. Chemical stability

The product is stable under normal conditions.

#### 10.3. Possibility of hazardous reactions

Unknown.

#### 10.4. Conditions to avoid

The product is stable and no degradation occurs under normal use. Protect against flames, sparks, overheating and against frost.

#### 10.5. Incompatible materials

Protect against strong acids, bases and oxidizing agents.

#### 10.6. Hazardous decomposition products

Not developed under normal uses. Dangerous outcomes such as carbon monoxide and carbon dioxide are formed at high temperature and in fire.

## SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

### Sodium azide

Creation date 19th August 2016  
Revision date 22nd March 2023 Version 4.0

#### SECTION 11: Toxicological information

##### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

No toxicological data is available for the substance. Inhalation of solvent vapors above values exceeding exposure limits for working environment may result in acute inhalation poisoning, depending on the level of concentration and exposure time.

##### Acute toxicity

Fatal in contact with skin. Fatal if swallowed or if inhaled.

| sodium azide      |                  |          |               |         |     |
|-------------------|------------------|----------|---------------|---------|-----|
| Route of exposure | Parameter        | Value    | Exposure time | Species | Sex |
| Oral              | LD <sub>50</sub> | 27 mg/kg |               | Rat     |     |

##### Skin corrosion/irritation

Based on available data the classification criteria are not met.

##### Serious eye damage/irritation

Based on available data the classification criteria are not met.

##### Respiratory or skin sensitisation

Based on available data the classification criteria are not met.

##### Germ cell mutagenicity

not available

##### Carcinogenicity

Based on available data the classification criteria are not met.

##### Reproductive toxicity

Based on available data the classification criteria are not met.

##### Toxicity for specific target organ - single exposure

Based on available data the classification criteria are not met.

##### Toxicity for specific target organ - repeated exposure

May cause damage to the brain through prolonged or repeated exposure. Based on available data the classification criteria are not met.

##### Aspiration hazard

Based on available data the classification criteria are not met.

##### 11.2. Information on other hazards

The substance does not have endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.

#### SECTION 12: Ecological information

##### 12.1. Toxicity

Very toxic to aquatic life with long lasting effects.

## SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

## Sodium azide

|               |                  |         |     |

| Creation date | 19th August 2016 | Version | 4.0 |
| Revision date | 22nd March 2023  |         |     |

## Acute toxicity

| sodium azide     |           |               |         |             |
|------------------|-----------|---------------|---------|-------------|
| Parameter        | Value     | Exposure time | Species | Environment |
| LC <sub>50</sub> | 5.46 mg/l | 96 hours      | Fish    |             |

## 12.2. Persistence and degradability

not available

## 12.3. Bioaccumulative potential

Not available.

## 12.4. Mobility in soil

Not available.

## 12.5. Results of PBT and vPvB assessment

Product does not contain any substance meeting the criteria for PBT or vPvB in accordance with the Annex XIII of Regulation (EC) No 1907/2006 (REACH) as amended.

## 12.6. Endocrine disrupting properties

This substance does not have endocrine disrupting properties with respect to non-target organisms as it does not meet the criteria set out in section B of Regulation (EU) No 2017/2100.

## 12.7. Other adverse effects

Not available.

## SECTION 13: Disposal considerations

## 13.1. Waste treatment methods

Hazard of environmental contamination; dispose of the waste in accordance with the local and/or national regulations. Proceed in accordance with valid regulations on waste disposal. Any unused product and contaminated packaging should be put in labelled containers for waste collection and submitted for disposal to a person authorised for waste removal (a specialized company) that is entitled for such activity. Do not empty unused product in drainage systems. The product must not be disposed of with municipal waste. Empty containers may be used at waste incinerators to produce energy or deposited in a dump with appropriate classification. Perfectly cleaned containers can be submitted for recycling.

## Waste management legislation

Directive 2008/98/EC of the European Parliament and of the Council of 19 November 2008 on waste, as amended. Decision 2000/532/EC establishing a list of wastes, as amended.

## SECTION 14: Transport information

## 14.1. UN number or ID number

### SECTION 15: Regulatory information

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of 18th December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing the European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No. 793/93 and Commission Regulation (EC) No. 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC, as amended. REGULATION (EC) No. 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL as amended. Commission Regulation (EU) 2020/878 of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

#### 15.2. Chemical safety assessment

A chemical safety assessment has not been carried out.

### SECTION 16: Other information

#### A list of standard risk phrases used in the safety data sheet

|           |   |
|-----------|---|
| H310      | Fatal in contact with skin.   |
| H373      | May cause damage to the brain through prolonged or repeated exposure. |
| H400      | Very toxic to aquatic life.   |
| H410      | Very toxic to aquatic life with long lasting effects.                 |
| H300+H330 | Fatal if swallowed or if inhaled.                                     |

#### Guidelines for safe handling used in the safety data sheet

|           |   |
|-----------|---|
| P273      | Avoid release to the environment.               |
| P280      | Wear protective gloves/protective clothing.     |
| P301+P310 | IF SWALLOWED: Immediately call a doctor.        |
| P302+P352 | IF ON SKIN: Wash with plenty of water and soap. |
| P310      | Immediately call a doctor.                      |

#### A list of additional standard phrases used in the safety data sheet

|        |  |
|--------|--|
| EUH032 | Contact with acids liberates very toxic gas. |
|--------|--|

#### Other important information about human health protection

The product must not be - unless specifically approved by the manufacturer/importer - used for purposes other than as per the Section 1. The user is responsible for adherence to all related health protection regulations.

## SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

### Sodium azide

|               |                  |         |     |
|---------------|------------------|---------|-----|
| Creation date | 19th August 2016 | Version | 4.0 |
| Revision date | 22nd March 2023  |         |     |

#### Key to abbreviations and acronyms used in the safety data sheet

|                     |   |
|---------------------|---|
| ADR                 | European agreement concerning the international carriage of dangerous goods by road               |
| BCF                 | Bioconcentration Factor   |
| CAS                 | Chemical Abstracts Service  |
| CLP                 | Regulation (EC) No 1272/2008 on classification, labelling and packaging of substance and mixtures |
| EC                  | Identification code for each substance listed in EINECS   |
| EINECS              | European Inventory of Existing Commercial Chemical Substances                                     |
| EmS                 | Emergency plan  |
| EU                  | European Union  |
| EuPCS               | European Product Categorisation System  |
| IATA                | International Air Transport Association   |
| IBC                 | International Code For The Construction And Equipment of Ships Carrying Dangerous Chemicals       |
| ICAO                | International Civil Aviation Organization   |
| IMDG                | International Maritime Dangerous Goods  |
| IMO                 | International Maritime Organization   |
| INCI                | International Nomenclature of Cosmetic Ingredients  |
| ISO                 | International Organization for Standardization  |
| IUPAC               | International Union of Pure and Applied Chemistry   |
| LC <sub>50</sub>    | Lethal concentration of a substance in which it can be expected death of 50% of the population    |
| LD <sub>50</sub>    | Lethal dose of a substance in which it can be expected death of 50% of the population             |
| log K <sub>ow</sub> | Octanol-water partition coefficient   |
| OEL                 | Occupational Exposure Limits  |
| PBT                 | Persistent, Bioaccumulative and Toxic   |
| ppm                 | Parts per million   |
| REACH               | Registration, Evaluation, Authorisation and Restriction of Chemicals                              |
| RID                 | Agreement on the transport of dangerous goods by rail   |
| UN                  | Four-figure identification number of the substance or article taken from the UN Model Regulations |
| UVCB                | Substances of unknown or variable composition, complex reaction products or biological materials  |
| VOC                 | Volatile organic compounds  |
| vPvB                | Very Persistent and very Bioaccumulative  |
| Acute Tox.          | Acute toxicity  |
| Aquatic Acute       | Hazardous to the aquatic environment  |
| Aquatic Chronic     | Hazardous to the aquatic environment (chronic)  |
| STOT RE             | Specific target organ toxicity - repeated exposure  |

#### Training guidelines

Inform the personnel about the recommended ways of use, mandatory protective equipment, first aid and prohibited ways of handling the product.

#### Recommended restrictions of use

not available

#### Information about data sources used to compile the Safety Data Sheet

REGULATION (EC) No. 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL (REACH) as amended.  
REGULATION (EC) No. 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL as amended. Data from the manufacturer of the substance / mixture, if available - information from registration dossiers.

#### The changes (which information has been added, deleted or modified)

The version 4.0 replaces the SDS version from 14 January 2022. Changes were made in sections 1, 2, 13, 15 and 16.

## SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

### Sodium azide

#### More information

Classification procedure - calculation method.

#### Statement

The safety data sheet provides information aimed at ensuring safety and health protection at work and environmental protection. The provided information corresponds to the current status of knowledge and experience and complies with valid legal regulations. The information should not be understood as guaranteeing the suitability and usability of the product for a particular application.
