

## Silicone oil

Chemical formula:

Molar mass:

CAS: 9006-65-9

EINECS:

### see specification (22890)

---

Appearance	clear, colourless, viscous liquid
------------	-----------------------------------

Titration acid	passes test
----------------	-------------

---

### technical (38460)

---

Appearance	clear colourless to yellowish liquid
------------	--------------------------------------

Titration acid	passes test
----------------	-------------
